Summary

B.Tech graduate in Computer Science and Engineering with first class and GATE-qualified candidate with a strong foundation in core computer science concepts, including Object-Oriented Programming, Database Management Systems, and Computer Networks. Skilled in developing full-stack web applications with hands-on experience in frontend development, backend systems, and database management. Interested in machine learning and modern software development.

Education

University of Kalyani <i>Bachelor of Technology in Computer Science and Engineering, CGPA: 8.49</i>	Kalyani, West Bengal Nov 2022 – Jun 2026
Onda High School <i>Higher Secondary, Percentage: 95%</i>	Onda, Bankura, West Bengal Aug 2020 – Jun 2022

Experience

IEEE Computational Intelligence Society, Kolkata Chapter <i>Summer Intern</i> - Successfully completed the Summer Internship Program 2025. - Developed the CAFVIS research model for the abstractive summarization of long research papers and prepared documentation for review. - Leveraged advanced natural language processing models, specifically LongT5 and Pixtral, to generate accurate summaries.	Kolkata, West Bengal Jun 2025 – Jul 2025
---	---

Projects

Hostel Management System <i>Full-Stack Web Application</i> GitHub - Designed and deployed a comprehensive management system to handle resident boarder operations for facilities like XYZ Bhawan. - Built the backend using Java Servlets, JSP, and a MySQL database within the Eclipse IDE. - Optimized the repository structure for deployment, strictly isolating codebase environments into <code>src</code> and <code>Webcontent</code> directories.	May 2025 – Jun 2025
Personal Portfolio Website <i>Frontend Application</i> GitHub Live Demo - Developed a responsive and modern personal portfolio website to showcase technical projects and skills. - Built utilizing Node.js, HTML and styled with CSS, leveraging component-based architecture for scalability.	March 2026 – April 2026

Technical Skills

Frontend: HTML5, CSS3, Tailwind CSS
Languages: C++, C, Python, Java
Databases: MySQL
Tools: Git, GitHub, Eclipse
OS: Windows, Linux

Key Achievements

GATE 2026 Qualified: Successfully qualified the Graduate Aptitude Test in Engineering (GATE) in the Computer Science and Information Technology (CS) stream.
IEEE Research Internship: Selected for and completed a competitive research internship with the IEEE Computational Intelligence Society, Kolkata Chapter.

Areas of Interest

Web Development: Full-stack application design with RESTful APIs, MVC architecture, and modern JavaScript frameworks.
Machine Learning & NLP: Text summarization, transformer-based models, and large language model fine-tuning for domain-specific tasks.
Competitive Programming: Active problem-solver with a focus on algorithms, data structures, and analytical thinking.
